

## Easy Viral Profits PDF

What's going on!

Mike Buontempo here and I'm hoping you're ready to dive into this PDF with me...

Honestly...I love Facebook...

Without it, I don't know where my business would be..

It's one of the easiest and most scalable traffic sources out. The viral effects are great and the ability to capture people on Fan Pages makes it even better.

Focus on one niche here!

Don't jump around..

Anyways..

Let's go.

So you want to go Viral...

You need to engage your fans

..ask them to do something.. "like this."

"Share this"

Keep those two phrases in your head. They're very important.

So here's 4 of my favorite strategies to get FREE Viral Traffic from FB.

1. Simple Text with White Background made in Paint.

# **I am Against Pet Abuse!**

## **Like and Share if You Are Too!**

Something simple like this should kill it for you. If your Fan Page is big..it can go viral and pick up thousands of fans and traffic in MINUTES!

You can see I told them to “Like and Share” If they are against something. Well of course their against pet abuse!

2. Get a Cute Picture Or Logo of something that pertains to the Fan Page

You could get a cute cat or Team Logo of the Yankees and tell them to Like and Share if You LOVE The YANKEES!

Very simple and works extremely well.

3. Ask them a Question on a White Background.

# Is Derek Jeter One Of The Yankee Greats?

## Like and Share IF You Think So!

You know if you had a Yankees Fan Page this would get TONS of likes and Share very easily.

Simple stuff like this works.

4. "Quote This" Pictures! So essentially you would get a picture that should have a quote next to it. You've probably seen this in magazines or online. People love being creative and funny and it's easy for them to be on FB!

So there you have it.

Simple PROVEN methods that will get you more traffic for FREE.

Engage your users and you will get them to be more responsive and in the end make more money!

Hope you enjoyed this!
