

Profit Cheat Sheet

This is exactly what I do, and I make a cool \$200-\$300 each time I do it.

1. Pick Niche
2. Generate fans using either Ads or Free Methods (wall jacking, invites)
3. Post Viral Bait and get everyone to comment, like, and share.
4. Comments are worth the most and will make your post go viral faster than the other Edgerank items.
5. Choose CPA offer to test out. Try a couple different ones to see which one gives you the best EPC's.
6. Collect cash.
